## Join Us Around The Campfire

Dunrovin Ranch is so fortunate to have a longstanding relationship with Montana performer Charla Bauman. Fresh off her appearance at Brookdale Missoula Valley, Charla will share her love of lyric and song around two campfires at the ranch, again with many Brookdale residents in attendance.

Charla has performed popular hits and poignant originals in the Northwest and Canada since an early age. Her love of vintage pop and country always finds a warm reception and is routinely spiced up with a little rocky blues and folk. And she yodels, too.

Best of all, she is warmly responsive to her audience. It's as if an old friend has dropped by for lemonade, then brings out her guitar and plays for the sheer joy of it. Charla performed at Dunrovin in 2018 at our "Poetry in Motion" Equine Art Extravaganza. Her beautiful live performance was the perfect touch for this fundraising event. Charla surprised the crowd and SuzAnne, the owner of Dunrovin, with an original song in tribute to SuzAnne's special mare, Lady Lonza. It was a moving way to close an extraordinary evening.

# Charla Bauman and Doug Hogan

On Tuesday, May 28, at 2:00 p.m., Charla partners with long-time friend and performing partner Montana Cowboy Singer Doug Hogan. Stevensville, Montana is where he hangs his hat and he is still singing to the cows, stars, and anyone who will listen. At age 11, Doug was given his first guitar and began playing cowboy songs. He has entertained in many of the western states with his music, his poetry, and his stories of the West. As Doug tells it, "I have been fortunate to have worked with horses and livestock the majority of my life, but I think that there are great many folks out there that have adopted the cowboy values and wish to promote our western heritage, that fit the cowboy image just fine. If we should meet on one of life's trails, stop and let's visit. I would be pleased to make your acquaintance." You're cordially invited to join us 'round the campfire with Charla and Doug.

**Broadcast Date: Tuesday, May 28      Time: 2:00 PM**
