

## The 2023 Osprey Season Thus Far (June 3rd)

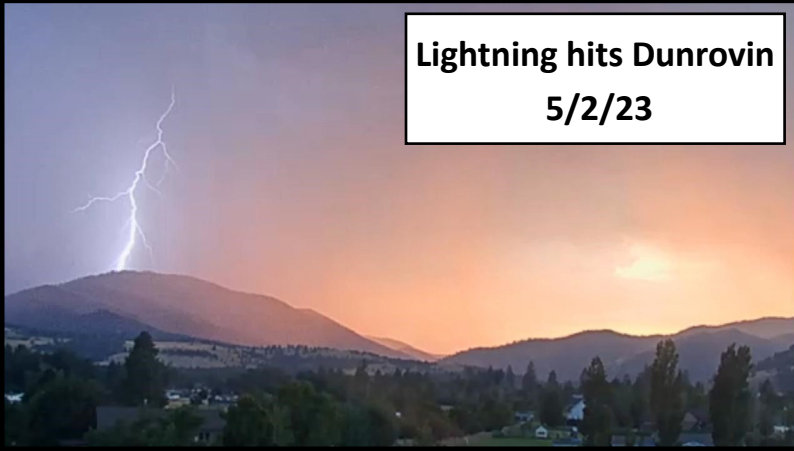

**Harriet and Swoop  
Arrived by 4/9/23**

**3 eggs laid by 4/27/23**

**Lightning hits Dunrovin  
5/2/23**

### What Has Happened Already?

- Harriet arrived on April 2
- Swoop Arrived on April 9
- Harriet and Swoop rebuilt the nest
- They frequently mated
- Harriet laid 1st egg on April 21
- Harriet laid 2nd egg on April 24
- Harriet laid 3rd egg on April 27
- Lightning destroyed Dunrovin's webcam system on 5/2/23
- Simple nest backup webcam survived, but lacks sound and zoom.
- Chicks named after lightning: Snap, Crackle, and Pop.
- Snap hatched—3:30pm, 5/30/23
- Crackle hatched—11:50pm, 5/30/23
- Pop hatched—2:00am, 6/2/23
- Swoop has been feeding the family with 3-5 BIG fish/day.

**Swoop has brought a steady  
stream of fish to the nest.**

# Previous Years at the Dunrovin Nest

Eating, sleeping, and growing are the chicks' only jobs during the first month.

As feathers begin to grow, the chicks transform into tiny dinosaur-like creatures.

## What Happened in previous years?

- **2011** webcam installed. Harriet and Ozzie fledge two chicks.
- **2012** Harriet and Ozzie lay two eggs that fail to hatch.
- **2013** Harriet and Ozzie fledge three chicks .
- **2014** Harriet and Ozzie had three chicks hatch, only two fledged, and Ozzie was killed by an eagle.
