

Welcoming Tracy to Dunrovin

Tracy Diiullo worked with draft horses for Disneyland in California and served as their teamster driving both the Main Street Coach and the Pumpkin Carriage for fairytale weddings.

Dunrovin Ranch is delighted to have lured such an experienced, knowledgeable, hard working, and fun person as Tracy Diiullo to join our team. It is already apparent she brings a can-do attitude, a love of animals, and a cooperative team attitude with lots of both people and horse skills to Dunrovin. She and her husband now live in Florence, Montana, which is only a few miles south of Dunrovin. Her horse driving background will enable Tracy to get our pair of ponies, Captains Lewis and Clark, back in harness for some carriage rides!

A Horsewoman of Many Talents

Watch for Tracy to wave to the web cameras as she gets to know the Dunrovin Herd.

In Her Own Words

Hi! I'm Tracy and I'm new here at Dunrovin. I got my first horse when I was thirteen (I know that's old) and started competing in western show competitions. I got involved with reining (a riding competition where riders guide their horses through a precise pattern of circles, spins, and stops, while galloping), working cattle with horses and finally cutting (where horse and rider work together to demonstrate the horse's ability to handle cattle). I was fortunate enough to work as an assistant trainer at a family owned cutting horse ranch for thirteen years. I then went to work at Disneyland and was introduced to the gentle giants of the horse world The Draft Horse. I learned how to "drive" horses and was a driver on Main Street and also a carriage driver for fairytale weddings.

Now at Dunrovin, riding Tennessee Walking horses is a new experience for me. I have to say it's a blast! This ranch is so unique there's nothing else like it. From the horses to the ponies, miniature donkeys, feeding the birds and interacting with everyone on the webcams, I feel so lucky to be a part of this ranch. I look forward to my Day's at Dunrovin.
